

IDeA Networks of Biomedical Research Excellence (INBRE) - Student Research

IDeA Networks of Biomedical Research Excellence (INBRE) is a federally funded grant program that originates from the National Institute of General Medical Sciences (NIGMS) at the National Institutes of Health (NIH). INBRE promotes the development, coordination, and sharing of research resources and expertise that will expand the research opportunities and increase the number of competitive investigators in the IDeA-eligible states. For information contact Sean M. Calder, Professor of Biology and Microbiology at (808) 984-3220 or visit <http://inbre.jabsom.hawaii.edu/>
